WEMO-tec implements *Sycor.Rental*

WEMO-tec GmbH in Eichenzell has decided to implement Microsoft Dynamics AX and *Sycor.Rental*. The fully integrated ERP solution will cover all processes involved in renting. In addition, the company is building on *Sycor.TransportationManagement* in the future.

(Goettingen) "The software we are using is no longer keeping pace with our growth. In our search for a fully integrated ERP solution which would meet our process requirements as a rental company, we came across *Sycor.Rental*," WEMO-tec director Joachim Nießner explained. "We were convinced both by the solution and by the SYCOR GmbH team."

And so WEMO-tec, a Werner Group company founded in 1989, is going to implement *Sycor.Rental* and *Sycor.TransportationManagement* for 20 users over a project duration of just three months. *Sycor.Rental* is the fully integrated ERP solution for the rental, trade, service, and maintenance of mobile goods on the basis of Microsoft Dynamics AX 2009 and covers all company processes around individual and bulk rentals. *Sycor.TransportationManagement*, also based on Microsoft Dynamics AX 2009, is the optimal, secure, high-performance software to solve transportation problems.

Since WEMO-tec was founded, all areas of the company have gained a strong position and asserted themselves in the market. "With a team of around 140 employees, we are a reliable and competent partner in our business segments," Nießner said. WEMO-tec is active in the areas of scaffolding construction, bridge access technology, and in the renting of elevating work platforms. Currently, a wide range of over 300 models of elevating work platforms are available at three different rental locations. The rental fleet is rounded out with miniature cranes and telescoping and heavy-duty telescoping boom trucks. In the bridge inspection equipment segment, the company has grown beyond the borders of Germany to become Europe's largest rental company for these specialized machines. Subsidiaries currently reside in Italy, Holland, Portugal, Spain, and just recently also in Poland.

Press release May 14, 2010

About Sycor:

As a service provider with a worldwide staff of about 300, the Sycor Group covers the whole spectrum of information and communications technology. With headquarters in Goettingen and further locations in Wiesbaden, Hamburg, Stuttgart, Pittsburgh (USA), Montreal (Canada), Singapore, Shanghai (China) and Kuala Lumpur (Malaysia) the company is as international as many of its customers. Sycor primarily provides Microsoft Dynamics AX and SAP® ERP services in addition to management and strategy consulting. The company develops and operates tailored solutions in the areas of telecommunication, archiving and document management, e-business, IT outsourcing and networks.

In the SAP environment, the company focuses on industrial manufacturing companies. Sycor offers industry-specific SAP Business All-in-One solutions for businesses in the plastics processing industry, automotive component suppliers, surface finishing companies and metal processing enterprises. Sycor also supports companies in the mobile goods rental, printing and packaging, process and retail industries with industry solutions based on Microsoft Dynamics AX.

In addition, Sycor serves the financial services sector in Asia and the oil and gas industry in the US. Founded in 1998, the Sycor Group has had a DIN EN ISO 9001:2000 certified quality management system and SAP® Hosting Partner status since 2002. Sycor is also a Microsoft Gold Certified Partner. The company generated €35 million in sales in 2009.
